

MONITOR & ANALYSE  
WORKFORCE  
VACCINATION STATUS

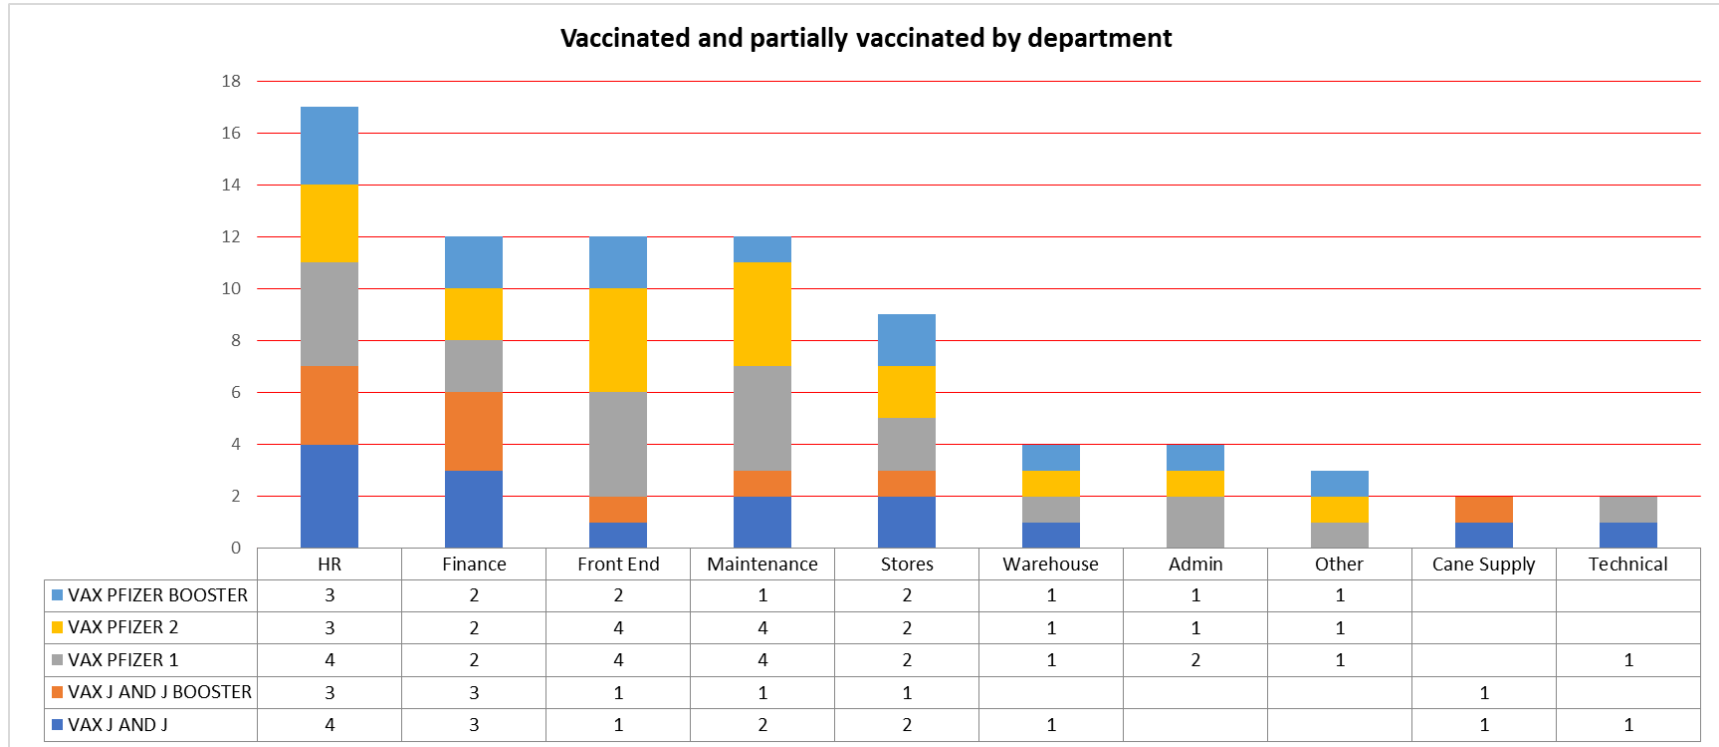

The standard **on click** report for ‘Condition Monitoring’ provides an easy reference tool for following up with employees due for a second, third or any subsequent vaccination.

This can be used for future vaccination campaigns.

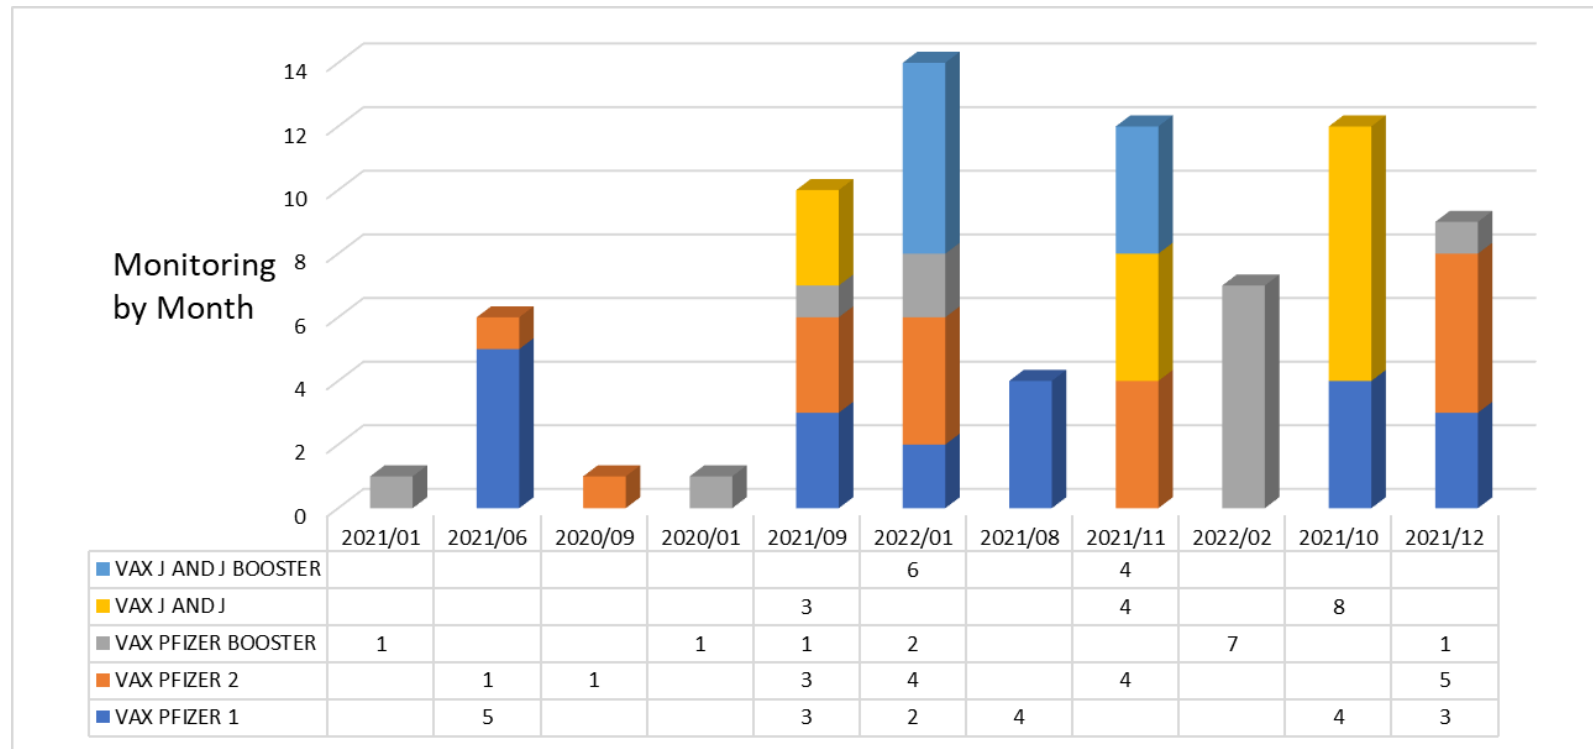

Condition Monitoring - Vaccination									
Status VAX J AND J		15

## ONLY IN CLINICSISTER ENTERPRISE AND CLINICSISTER CUSTOM

Add the Vulnerability Rating Module and analysis will provide an extra dimension.

These ClinicSister options enable interfacing with workforce management systems to control access of employees who are not vaccinated, have missed medicals or have been declared unfit at the last medical.

In this example, ratings of 4 and 5 are considered highly vulnerable.
